Ventura County Advanced Air Mobility Range

Request for Submission of Concept of Operations (ConOps) for Test Range Use

Date: [Insert Date]

To: [Company Representative Name]

Company: [Company Name]

Email: [Email Address]

Dear [Company Representative Name],

Thank you for your interest in conducting testing at the Area 805 Ventura County Advanced Air Mobility Range. As part of our pre-operation requirements, we request that you submit a detailed Concept of Operations (ConOps) document that will allow us to evaluate your proposed activities and ensure they can be conducted safely within our facility.

ConOps Requirements

Please include the following elements in your submission:

1. Testing Objectives

- Detailed description of the test goals and expected outcomes
- Performance metrics and success criteria
- Relevance to overall development program
- Data collection requirements

2. Operational Procedures

- Step-by-step procedures for the entire operation
- Detailed flight paths and operational areas (include diagrams/maps)
- Communication protocols between team members
- Contingency procedures for off-nominal situations
- Pre-flight checklist and verification procedures
- Post-flight procedures

3. Safety Measures

- Comprehensive risk assessment using standard risk matrix
- Identification of potential hazards and mitigation strategies

- Emergency procedures for various scenarios
- Safety compliance with applicable regulations
- Abort criteria and procedures
- Lost link procedures
- Personnel safety requirements

4. Technical Specifications

- Detailed description of UAS/aircraft, including performance characteristics
- Communication systems and frequencies to be used
- Control systems and redundancies
- Payload details and specifications
- Power systems and endurance calculations
- Maximum operating parameters (altitude, speed, range)

5. Personnel and Equipment

- Roles and responsibilities of all personnel involved in the operation
- Qualifications and experience of key personnel
- Equipment list including ground support equipment
- Setup and teardown requirements

6. Regulatory Compliance

- Applicable FAA regulations and how compliance will be achieved
- Certificates, authorizations, or exemptions held
- Privacy considerations and mitigations
- Environmental considerations

7. Scheduling and Resource Requirements

- Estimated timeline for test activities
- Support requirements from the test range
- Special resource needs or arrangements

Submission Instructions

Please provide the ConOps document by **[Due Date]** to ensure timely review and approval of your test range application. Documents should be submitted in PDF format to [area805range@venturacounty.gov] with "ConOps Submission - [Your Company Name]" in the subject line.

Our team will review your submission within 5 business days and may request clarification or additional information if needed. Final approval of range usage is contingent upon acceptance of

your ConOps and completion of all other requirements outlined in our Standard Operating Procedures.

We have attached a template that you may use as a guide for formatting your ConOps document. While adherence to this template is not mandatory, it provides a framework that addresses all required elements.

Should you have any questions or require assistance in developing your ConOps, please feel free to contact our operations team at [area805range@venturacounty.gov] or call [Phone Number].

We look forward to supporting your innovative work at Area 805.

Sincerely,

[Your Name]
